

## Pick Up the Pieces

Jason Derülo

You don't really wanna let this stuff go  
But you're too stubborn to pick up the phone  
So round and round we go  
I should be happy but I'm feeling so so  
There's something missing and I bet you it's you  
I know it  
You know it  
We were made for each other so

My shattered heart is on the ground  
I've got to see your face right now  
Just tell me where and you'll find me waiting there

Can we forget the past  
I miss you I mean it  
And if love is made of glass  
Can we pick up the pieces  
Pick up pick up up the pieces  
Pick up pick up up the pieces  
And if love is made of glass  
Can we pick up the pieces

I wear a smile to hide the hurt  
Cause noone... burst  
People say that time heals on  
So why is it getting worse  
I just don't wanna face this battle alone  
I know it  
You know it  
We were made for each other so

My shattered heart is on the ground  
I've got to see your face right now  
Just tell me where and you'll find me waiting there

Can we forget the past  
I miss you I mean it  
And if love is made of glass  
Can we pick up the pieces  
Pick up pick up up the pieces  
Pick up pick up up the pieces  
And if love is made of glass  
Can we pick up the pieces

Cutting through my soul and it's razor sharp  
Now I'm scattered here in a million parts  
How am I supposed to fix a broken heart  
Cutting through my soul and it's razor sharp  
Now I'm scattered here in a million parts  
How am I supposed to fix a broken heart

Can we forget the past  
I miss you I mean it  
And if love is made of glass  
Can we pick up the pieces  
Pick up pick up up the pieces  
Pick up pick up up the pieces

And if love is made of glass  
Can we pick up the pieces
