Jason Derulo

Oh oh!
Jason Derulo!

I got more problems than an algebra equation
They say become a doctor, I don't have the patience
Ain't with the waitin', what's my motivation?
The road less traveled is the one that I'll be takin'
Lonely days, were the only days
I remember the days I would say
I could be star tomorrow if I really wanted to
I could be a star tomorrow if I just get rid of you
Haters (haters, haters)
Haters (haters, haters)
Haters (haters)

You, what you tryna prove?
Eyes on me like I'm in your movie screen
Damn I know I'm fly, ain't got nothin' to hide
Want a piece of my pie?
Then you got more problems than I, I, I

I got more problems than an algebra equation
They say become a doctor, I don't have the patience
Ain't with the waitin', what's my motivation?
The road less traveled is the one that I'll be takin'
Lonely days, were the only days
I remember the days I would say
I could be star tomorrow if I really wanted to
I could be a star tomorrow if I just get rid of you
Haters (haters, haters)
Haters (haters, haters)
Haters (haters)

Hey, what you tryna say?
Can't get me off your brain, and it's drivin' you insane
'Cause damn, you know I'm fly, ain't got nothin' to hide
Want a piece of my pie?
Then you got more problems than I, I

Who's gonna take me?
Who's-Who's gonna take me-take me?
Who's gonna take me away from here?

I got more problems than an algebra equation
They say become a doctor, I don't have the patience
Ain't with the waitin', what's my motivation?
The road less traveled is the one that I'll be takin'
Lonely days, were the only days
I remember the days I would say
I could be star tomorrow if I really wanted to
I could be a star tomorrow if I just get rid of you
Haters (haters, haters)
(Oh!)
Haters (haters, haters)
(Oh!)
Haters (haters)

Don't want no problems
No problems
Don't want no problems
