

# Be Careful

Jason Derulo

Have you ever had the feeling you were being watched?  
Footsteps behind you like a shadow when you walk?  
Can't tell if your mind is playing tricks or not?  
Ay, ay, ay, ay, no  
What I'm going through is now a rock in my brain  
Thinking 'bout like do I got any enemies?  
Where I've been, what I did, what did I say?  
Ay, ay, ay, ay, no, whoa

Come to think of it, I remember one chick  
That I was messing with while I was in Connecticut  
I met her after my show, I took her back to my room  
The next day I had to go, I never thought it would

Get (get) this deep (deep)  
Now I got this problem following me (ay)  
You better be careful, better be careful, better be careful  
Whose heart (heart) you'll break (break)  
You're never knowing what she'll do or say (say)  
Will send 'em over the edge so, next time I'll be careful

Yeah, I'm getting letters every other day addressed to me  
Saying, "Dear Jason, you and I were meant to be"  
Tell me you feel the same or it will be the death of me  
Ay, ay, it gets worse now  
She reaching out to all my people, friends and family (look)  
Got me so paranoid; I'm stacking up security (whoa)  
It's getting crazy here, it's difficult for me to sleep  
Ay, ay, ay, ay, you know

Now all I'm thinking is, how do I get out of this?  
I'm feeling kind of sick, damn, this is some crazy shit  
I met her after my show, I took her back to my room  
The next day I had to go, I never thought it would

Get (get) this deep (deep)  
Now I got this problem following me (ay)  
You better be careful, better be careful, better be careful  
Whose heart (heart) you'll break (break)  
You're never knowing what she'll do or say (say)  
Will send 'em over the edge so, next time I'll be careful  
Yeah, oh, I'll be careful  
Oh, yeah, whoa, yo, yo

This got so out of control, I learned my lesson now so  
Oh, oh, oh, oh, oh, oh, oh, be careful (yeah, yeah)  
She's holding, no won't let go (oh), she wants a piece of my soul (oh)  
Oh, oh, oh, oh, oh, oh, oh, be careful (yeah, yeah)

I met her after my show, I took her back to my room  
The next day I had to go, I never thought it would

Get (get) this deep (deep)  
Now I got this problem following me (ay) (following me)  
You better be careful, better be careful, better be careful  
Whose heart (heart) you'll break (break) (whose heart you'll break)  
You're never knowing what she'll do or say (say) (or say)

Will send 'em over the edge so  
I never thought it would get (get) this deep (deep)  
Now I got this problem following me (ay)  
You better be careful, better be careful, better be careful  
Whose heart (heart) you'll break (break)  
You're never knowing what she'll do or say (say) (or say)  
Will send 'em over the edge so, next time I'll be careful  
Oh, yeah, be careful
