Cheyenne, Cheyenne

I'm a little unsure how it got so complicated  
If I let go I know, I'll regret it  
Every heart that I held before, I was sure to break it  
I don't know what you did, but

I just can't stop thinking 'bout you every day  
No, I can't stop now

Look what we started, baby  
You're not what I expected  
'Cause all I ever wanted was some fun  
Look what we started, baby  
I used to look for exits  
'Cause all I ever wanted was some fun

I never meant to fall in love  
I never meant to fall in lo-ove  
I never meant to fall in love  
I never meant to fall in lo-ove

Cheyenne, got the table set for two, guess you couldn't make it  
Thought I kissed your lips again, I was dreaming (dreaming)  
I still believe that night we shared was something sacred (yeah)  
I'm tryna clear my head, but

I just can't (can't) stop (stop) thinking 'bout you every day  
No, I can't (can't) stop now

Look what we started, baby  
You're not what I expected  
'Cause all I ever wanted was some fun (Cheyenne)  
Look what we started, baby (started, baby)  
I used to look for exits  
'Cause all I ever wanted was some fun

I never meant to fall in love  
I never meant to fall in lo-ove  
I never meant to fall in love  
I never meant to fall in lo-ove

Cheyenne, Cheyenne  
Cheyenne, Cheyenne

No, I can't stop thinking 'bout you every day  
No, I can't stop now

Look what we started, baby (oh, oh, baby)  
You're not what I expected (woo)  
'Cause all I ever wanted was some fun (huh, woo)  
Look what we started, baby (started, baby)  
I used to look for exits (you, yeah)  
'Cause all I ever wanted was some fun (oh, oh)

I never meant to fall in love (Cheyenne)  
I never meant to fall in lo-ove

I never meant to fall in love (Cheyenne)  
I never meant to fall in lo-ove  
I never meant to fall in love (Cheyenne)  
I never meant to fall in lo-ove  
I never meant to fall in love (Cheyenne)  
I never meant to fall in lo-ove
