

Closer To Christmas

Jason Derulo

Every Christmas I get closer to you
Closer, closer to you

I can't wait another 365
Just to see you in red and white
Keep me up like the holiday lights
The best part of Christmas is always Christmas night

Yeah
What's happening
What what what's happening
Got you a package
Now won't you unwrap it
Yeah
What's happening
What what what's happening
Can't wait another minute
Just to give you that magic singing

Ooh
Let it fall, let it fall
Let the snow fall down oh
Want it all, want it all
Want it all right now 'cause

Everyday is one day closer to Christmas (One day closer to you)
Every night I close my eyes and I'm wishing (I'm one day closer to you)
Counting seconds like they're presents 'til my wish comes true
'Cause every Christmas I get closer to you (Closer, closer to you)

I know how to make 'em jangle bells rock (Bells rock)
Toosie slide in them Santa Claus socks (toosie)
You've been waiting on that holiday [?]
'Cause I feel it coming, don't believe me, just watch

Yeah
What's happening
What what what's happening
Got you a package
Now won't you unwrap it
Yeah
What's happening
What what what's happening
Can't wait another minute
Just to give you that magic singing

Ooh
Let it fall, let it fall
Let the snow fall down oh
Want it all, want it all
Want it all right now 'cause

Everyday is one day closer to Christmas (One day closer to you)
Every night I close my eyes and I'm wishing (I'm one day closer to you)
Counting seconds like they're presents 'til my wish comes true
'Cause every Christmas I get closer to you (Closer, closer to you)

Yeah, baby

Oh, ooh

Want it all, want it all

Want it all right now 'cause

Everyday is one day closer to Christmas (One day closer to you)

Every night I close my eyes and I'm wishing (I'm one day closer to you)

Counting seconds like they're presents 'til my wish comes true

'Cause every Christmas I get closer

Every Christmas I get closer

Every Christmas I get closer to you (Closer, closer to you)
