

Comatose

Jason Derulo

Right now, face down, not moving
Your heart, I'm tired of losing
Two shots, three shots, we over the top
Can't stop, what are we doing?

'Cause every time you come around, you know how to pull me down
It's like you put the barrel to my mouth
'Cause I know ain't no getting out
You got a way in my head and I can't stay out your legs
Without you lately, I'm a mess
Only you can help me rest

You make me feel coma, comatose
You make me feel coma, comatose (Comatose)

Making love to you like popping a Perc'
Instead of laying up with you, should be headed to work
You know I love the way that you be wearing my shirt
As you cooking me breakfast with two bands in your purse (Mm)
Can't lie, mm
That water, water making me lazy, mm
Why try?
I'm too high

Now every time you come around, you know how to pull me down
It's like you put the barrel to my mouth
'Cause I know ain't no getting out
You got a way in my head and I can't stay out your legs
Without you lately, I'm a mess
Only you can help me rest

You make me feel coma, comatose
You make me feel coma, comatose
My life is full of chaos and lies
Need some help to get sleep tonight
You make me feel coma, comatose (Comatose)
Make me feel

Coma, comatose
Make me feel
Ooh
Coma, comatose
Oh-oh, babe
