

# Electrifie

Jason Derulo

Electrifie  
You're so electrifie  
You're so electrifie  
Electronic  
Yeah, yeah  
Yeah, yeah

It's burnin' through my veins  
Electrified me but I love the pain  
My wire is on fire babe  
And I cool down if you're not close to me  
Your touch is like a shockwave  
And I'm addicted  
Yeah opposites attract to me  
I love to visit, visit, visit  
We in the dark 'cause my fuse is blown  
My lights are off (off)  
Girl you turn me on

We makin' love to the music  
We takin' it slow  
You're makin' me lose it  
You're shockin' my soul  
Baby you're perfect  
Can't believe that your mine  
Baby you've got it  
Electrifie  
You're so electric  
You're so electric  
You're so electric  
Oh-oh!  
You're so electric  
You're so electric  
You're so electric  
Ooh babe

Ticka ticki tick, tick-tick boom  
My circuits blown, can you come back to the room?  
Turn me on baby I'm waitin' on you  
To come, come closer, examine this view  
That sexy energy  
Keeps comin' at a great velocity  
That sexy energy  
Has got me feelin' like I never wanna leave  
Your bodies so exotic  
I wanna tell the world about it  
Put the plug in the socket  
If your really about it, 'bout it  
We're in the dark 'cause my fuse is blown  
My lights are off (off)  
But girl you turn me on

We makin' love to the music  
We takin' it slow  
You're makin' me lose it  
You're shockin' my soul  
Baby you're perfect

Can't believe that your mine  
Baby you've got it  
Electrifie  
You're so electric  
You're so electric  
You're so electric  
Oh-oh!  
You're so electric  
You're so electric  
You're so electric  
Ooh!

Won't you electrify me babe?  
Mm mm yeah  
Won't you check my voltage baby? (baby)  
Yeah (yeah, yeah)  
(Electrifie)  
Hey! (hey!)  
Oh yeah, oh yeah  
Oh yeah, oh yeah, yeah  
We're makin' love to the music  
We takin' it slow (hold on)  
We're makin' love to the music  
We takin' it slow (hold on, hold on)
