

Long Day

Jason Derulo

It's been a long day, just got out of work
Me no in the curbs, hit that bottle clip off it's adjourned
It's been a long day, just got out of court
Me so tired of these kids, don't wanna see them drugs no more
It's been a long day, got back from the store
Went back to the courts and saw some notices on my door
It's been a long day, so long so hard

It's so hard, tryna make it in the streets
Gotta sell a lot of (lot of) sell my bitch for third cheed
And I know, papa got diabetes so I must watch what I eat
'Cause I know what's coming for me
In this world, friends are few and far between
They ma say they got your back, won't take a collect call from me
But when I found out, and I get the balling
That might get the calling now it's like we all friends
But when I'm down, and I get the falling
No one there to pick me up no one to build my coffin
No mamma don't cry about it, no papa don't cry about it
No brother don't cry about it, you know you gonna be alright without me
'Cause you know that I'm in a better place
Where there's no more pain and there's no more long day

It's been a long day, just got out of work
Me no in the curbs, hit that bottle clip off it's adjourned
It's been a long day, just got out of court
Me so tired of these kids, don't wanna see them drugs no more
It's been a long day, got back from the store
Went back to the courts and saw some notices on my door
It's been a long day, so long so hard

Yeah!

What happened to the good days I never get to see em
I blame it on the president I wouldn't wanna be em
We living in the country were we fighting for our freedom
The government mislead em and looks can be deceiving
The keep on feeding you the lies got you living in a cell
You looking so surprised homie who you gonna tell?
Go spread the word and come and join the revolution
I tell em real clear, in high resolution
Say good buy to the dollar hello to the amero
And you been working hard to pull your car like a tero
Never seen a man in a Mercedes drive
'Til they raised the gas prices up to four eighty five
And it's more than he can afford, fire Honda Accord
Sitting praying to the lord, sick of being ignored
It's been a long day, a super long year
So me super showman a super soft YEA

It's been a long day, just got out of work
Me no in the curbs, hit that bottle clip off it's adjourned
It's been a long day, just got out of court
Me so tired of these kids, don't wanna see them drugs no more
It's been a long day, got back from the store
Went back to the courts and saw some notices on my door
It's been a long day, so long so hard

Me no wanna sell drugs me no wanna go back
Been doing so good and me no wanna go back
Me no wanna start drinking me no wanna go back
Been doing so good and me no wanna go back
She don't wanna go strip no she don't wanna go back
She been doing so good and she don't wanna go back
Me no wanna go to prison me no wanna go back
Been doing so good and me no wanna go back
He no woman I'm a waste and he don't wanna go back
He been doing so good and he no wanna go back
He no wanna go to war no he don't wanna do that
He just came back from Iraq and he don't wanna go back

It's been a long day, just got out of work
Me no in the curbs, hit that bottle clip off it's adjourned
It's been a long day, just got out of court
Me so tired of these kids, don't wanna see them drugs no more
It's been a long day, got back from the store
Went back to the courts and saw some notices on my door
It's been a long day, so long so hard
