

# Make Up

Jason Derulo

Come here girl  
Vice (ha-ha, yeah, yeah, yeah)

Uh, so tired of the back and forth  
Walk out and I slam that door  
Go looking for someone new  
But there's nothing better than sex with you  
Hell naw, now we can't be friends  
We ain't got all the benefits  
Never been a jealous dude  
But who the hell is that touching you?

I'm feeling like this is the opposite of love  
But we know opposites attract  
I want ya ba-a-a-ad  
It's so dysfunctional between the two of us  
You tell me this'll never last  
You want me ba-a-a-ack

Girl, we should go our separate ways, yeah  
Just so that we can make up (oh)  
I'll keep making the same mistakes, yeah  
Just so that we can make up  
Just so that we can make up

Pick up when I hit your line  
Break up, then I call you mine  
Never been a lonely girl  
But let me know I'm the only girl (you're the only girl)  
Too quick with the clap-back (clap-back)  
Love your attitude  
Leave me like I'm right-back (right back)  
Like ya always do

I'm feeling like this is the opposite of love  
But we know opposites attract  
I want ya ba-a-a-ad  
It's so dysfunctional between the two of us  
You tell me this'll never last  
You want me ba-a-a-ack

Boy, we should go our separate ways, yeah (slow down girl)  
Just so that we can make up (oh)  
I'll keep making the same mistakes, yeah  
Just so that we can make up (sheesh)  
Just so that we can make up

O-o-oh babe (Derulo)  
(Yo, yo) I want ya ba-a-a-ad  
Girl... boy... girl... boy...  
You want me ba-a-a-ack

Girl, we should go our separate ways, yeah  
Just so that we can make up (oh)  
I'll keep making the same mistakes, yeah  
Just so that we can make up...  
Just so that we can make up
