

Maniac

Jason Derulo

T-R-U-S-T me

I told you I was going out with my friends
You're following us, you're spying on me yet again
How can I keep loving you?
You're acting like a bugaboo
More than jealous, your love is far from difficult
Searching through my phone is something like a ritual
T-R-U-S-T me
You say you're crazy about me, but you're just insane

Boy, you beg and you plead asking me for a chance
I forgive and forget and you do it again
And I hate that I went and I fell in love
But I know you're so wrong for me just because...

You's a maniac, maniac for sure, for sure
And my friends tell me to just leave him alone
I gotta leave him alone
He's a maniac, maniac, oh no no, oh no no no
And I think it's time for me to up and go

I told you I was going out with my friends
You're following us, you're spying on me yet again
How can I keep loving you?
You're acting like a bugaboo
More than jealous, your love is far from difficult
Searching through my phone is something like a ritual
T-R-U-S-T me
You say you're crazy about me, but you're just insane

Boy, you beg and you plead asking me for a chance
I forgive and forget and you do it again
And I hate that I went and I fell in love
But I know you're so wrong for me just because...

You's a maniac, maniac for sure, for sure
And my friends tell me to just leave him alone
I gotta leave him alone
He's a maniac, maniac, oh no no, oh no no no
And I think it's time for me to up and go

You know
Give up
You know
Him go

You's a maniac, maniac for sure, for sure
And my friends tell me to just leave him alone
I gotta leave him alone
He's a maniac, maniac, oh no no, oh no no no
And I think it's time for me to up and go, go-oh
