

# Overdose

Jason Derulo

Let me love you till I overdose

The time we spent blazing my head like a rocket  
You got me up, I put it down it gets better  
I tried a million ways to see, it was too hard, too hard  
Your body's banging, like 808's and hammers knocking  
I wake up sayin' I need you baby I was lost when  
You tried to tell me I was fine, right from the start, the start

Uh you got the room spinnin'  
I don't wanna lose this feeling  
Girl you get me high, you know just what I like  
And I want some more, I want some more.  
So let me overdose  
Cause I'm feenin' for your touch  
Let me overdose,  
Cause baby I can't get enough  
Let me overdose, it's so good  
But your love is just too much,  
Your love is just too much.

Let me love you till I overdose  
Let me love you till I overdose  
Let me love you till I overdose

My life's a mess, but no regrets  
You are really, my favorite drug  
I need a fix, can you help me?  
I tried a million ways to quit,  
It was too hard, too hard baby

Uh you got the room spinnin'  
I don't wanna lose this feeling  
Girl you get me high, you know just what I like  
And I want some more, I want some more.  
So let me overdose  
Cause I'm feenin' for your touch  
Let me overdose,  
Cause baby I can't get enough  
Let me overdose, it's so good  
But your love is just too much,  
Your love is just too much.

Ain't no rehab  
Gonna take what we have, we have  
Cause what we have, is good  
Ain't no rehab  
Gonna take what we have, we have  
Cause what we have, is good

So let me overdose  
Cause I'm feenin' for your touch  
Let me overdose,  
Cause baby I can't get enough  
Let me overdose, it's so good  
But your love is just too much,  
Your love is just too much.

Let me love you till I overdose  
Let me love you till I overdose  
Let me love you till I overdose
