

Painkiller

Jason Derulo

M Train {Jason Derulo}, true

I thought my heart might break 'cause slowly this kills
Not everyone needs space (Oh no)
{You what the doctor gave, I swallowed the pill}
{I never loved this way} (Oh no)

You pick me up and get me higher (Higher)
You fill my cup with desire

Baby, I'm back now, feeling how I used to feel
You got me back now, stick around, this is for reals
You put it do-do-do-down, my painkiller
You put it do-do-do-down, my painkiller
Baby, I'm back now, feeling how I used to feel
You got me back now, stick around, this is for reals
You put it down
You put it down

I had to turn the page to get here to you
Love how you numb my pain (Oh yeah)
{But all the nurses say, "Beware of the juice"}
{That makes you go insane"} (Oh yeah)

You pick me up and get me higher (Higher)
You fill my cup with desire

Baby, I'm back now, feeling how I used to feel
You got me back now, stick around, this is for reals
You put it do-do-do-down, my painkiller
You put it do-do-do-down, my painkiller
Baby, I'm back now, feeling how I used to feel (Feel)
You got me back now, stick around, this is for reals
You put it down (Yeah, yeah, hey)
You put it down (Yeah, yeah, yeah, yeah)
You put it down (Hey, hey, hey, oh yeah, check this out)

I'm 'bout to kiss it, make it better, kiss and make it better, babe
(Kiss and make it better, kiss and make it better, babe)
I'ma kiss it, make it better, kiss and make it better, babe
(Ooh, kiss and make it better, kiss and make it better, babe)
You the best, you the best, you the best, you the best, oh
You the best, you the best, you the best, right now, (I know)
Baby, I'm back
(Baby, I'm back)

Baby, I'm back now, feeling how I used to feel
You got me back now, stick around, this is for reals (You got me back now)
You put it do-do-do-down, my painkiller (Painkiller, hey)
You put it do-do-do-down, my painkiller
Baby, I'm back now, feeling how I used to feel (Ooh, ha)
You got me back now, stick around, this is for reals (This is for reals)
You put it down (You put it down, baby, yeah)
You put it down, hey

You put it down, hey
My painkiller

You put it down, ha, yeah
My painkiller, yeah
You put it down
(Ooh, free-styling shit, uh)
