

# Proximity

Jason Derulo

Remember all the times  
Times when you and I  
Said, "We're done," but we faked it  
Look into your eyes  
I don't recognize  
Since your love got me faded

And I know that we've grown apart  
The space between us two is dark  
As big as it is, we could fit a whole planet

I know we  
Probably better off with distance  
But I need proximity  
'Til I understand what's missin'  
You won't like that version of me  
Bottom line is we're too different  
But I love when you next to me  
Probably better off with distance  
But I need proximity

We've been arguin' too loud, got complaints from the neighbors  
(Yeah, yeah, yeah)  
Seems like we've gotten good at actin' like strangers  
(Oh-ooh-ooh, oh-ooh-ooh, oh-ooh-ooh)  
Girl, don't that make you wonder what kind of game are we playin'?  
(What kind of game? Mm, what kind of game are we playin'?)  
The only thing we deserve it is what we not sayin'

I know we  
Probably better off with distance (Ooh)  
But I need proximity  
'Til I understand what's missin'  
You won't like that version of me  
Bottom line is we're too different  
But I love when you next to me  
Probably better off with distance  
But I need proximity, yeah (Oh, whoa)  
Probably better off with distance  
(But I need proximity)

Holdin' you close  
Sometimes I push you away, won't let you go  
I guess I'm just too afraid to let you know  
How bad I want you to stay here

Oh, I'm holdin' you close  
Holdin' you close  
Sometimes I push you away, won't let you go  
I guess I'm just too afraid to let you know  
How bad I want you to stay here (How bad I want you to stay here)

Probably better off with distance  
But I need proximity  
'Til I understand what's missin'  
( 'Til I understand)  
You won't like that version of me

(Bottom line is)  
Bottom line is we're too different, yeah  
But I love when you next to me (Ooh)  
Probably better off with distance  
But I need proximity

I need proximity, yeah, yeah, yeah
