

## Temporary Love

Jason Derulo

If you all now are kissing now  
We could have the time of our lives  
I'll pretend we're more than friends  
Hold you close, just for tonight

And even though we're not in love  
Time with you was just enough  
Now that we're done, it was fun  
But you got me singing like

Ooh, it's a temporary love, love  
(still got me open, just give me one motion)  
Ooh, it's a temporary love, love  
(let's do something crazy, we're living the moment)

No no, temporary love  
No no, temporary, I can't seem to get in love  
I'm going temporary love

Oh we, supposed to be  
Not as fun, the time begin  
Suddenly, who would think  
That one day I got feelings

And even though we're not in love  
Time with you was just enough  
Now that we're done, it was fun  
But you got me singing like

Ooh, it's a temporary love, love  
(still got me open, just give me one motion)  
Ooh, it's a temporary love, love  
(let's do something crazy, we're living the moment)

No no, temporary love  
No no, temporary, I can't seem to get in love  
I'm going temporary love
