

# Vertigo

Jason Derulo

Hey, girl, I know this shit might sound crazy  
Before you get in bed, throw on those heels  
Hey, girl, now I know why you waited  
Had to be sure that I was worth the thrill  
Ladies come and go but you got something different  
Had me so addicted from the start  
And I'd never known all this loving I'd be missing  
If I didn't work my way into your heart

You give me vertigo, vertigo  
{The bed, the floor, the kitchen, don't really matter long as I get}  
Vertigo, vertigo  
{On top, on bottom, inside of the bed, baby, you're making me sweat}  
Tell me that it's cool (Cool)  
That I'm stuck on you (You)  
Like your birthday suit (Suit)  
You give me vertigo, that vertigo

The way that you please me sets this room on fire  
I'm burning with desire in this bed  
So if I'm dreaming please don't wake me up  
If all of this is happening in my head  
Waited for so long, but what you got is different (Different)  
Had me so addicted from the start  
Boy, I'd never known all the shit that I was missing (Missing)  
If I hadn't worked my way into your heart

You give me vertigo, vertigo  
{The bed, the floor, the kitchen, don't really matter long as I get}  
Vertigo, that vertigo  
{On top, on bottom, inside of the bed, baby, you're making me sweat}  
Tell me that it's cool (Cool)  
That I'm stuck on you (You)  
Like your birthday suit (Suit)  
{You give me vertigo} (Vertigo), that vertigo

I'm working downtown, {you all in my head}  
This love that we found, {we'll never regret}  
Was empty inside  
{I'm filling you up with our vertigo}  
You waking me up {Yeah}, to my fantasy  
Right here in this bed, we stay here all day  
And my head be spinning  
{You do it to me with our vertigo}

You give me vertigo, {vertigo}, vertigo  
{The bed, the floor, the kitchen, don't really matter long as I get} (long as I get)  
Vertigo, vertigo, vertigo  
{On top, on bottom, inside of the bed, baby, you're making me sweat}  
Tell me that it's cool (Cool)  
That I'm stuck on you (You)  
Like your birthday suit (Suit) (Suit)  
You give me vertigo, that vertigo, vertigo

Say you give me, oh  
Vertigo, vertigo

Baby, oh  
{Vertigo, vertigo}  
Say you give me, oh  
Say you give me, oh  
{Vertigo, that vertigo}
