

# Change Your Mind

Jason Donovan

You made your mind up  
Never thought you'd do it  
Romantic vision  
I guess I blew it  
We could've been happy, we could've been happy  
if you just knew it, yeah

Was all the love that we had together  
just a game  
I thought that our love was love forever  
It's not the same since you've been gone

Because you used to be my lover  
but you wanna be free  
Change your mind  
Change your mind  
I'm not the man, you know  
that I used to be  
Change your mind  
Change your mind  
Change your mind  
Change your mind

They say I'm crazy  
but I know better  
She made me happy  
ever since I met her  
I hear them saying, I hear them saying  
just you forget her, yeah

And though our love hit stormy weather  
it's not the end  
I know that our love is love forever  
It's not the same since you've been gone

Because you used to be my lover  
but you wanna be free  
Change your mind  
Change your mind  
I'm not the man, you know  
that I used to be  
Change your mind  
Change your mind  
Change your mind  
Change your mind  
Change your mind

Was all the love that we had together  
just a game  
I thought that our love was love forever  
It's not the same since you've been gone

Because you used to be my lover  
but you wanna be free  
Change your mind  
Change your mind  
I'm not the man, you know

that I used to be  
Change your mind  
Change your mind

Because you used to be my lover  
but you wanna be free  
Change your mind  
Change your mind  
I'm not the man, you know  
that I used to be  
Change your mind  
Change your mind
