

Share My World

Jason Donovan

I've got so much more to give
So much life we've left to live
I wanna share my world with you
But you've got to try too
You can't take it or leave it
It's hard to decide but
I had seen in the distance
Our shining light
Cos I've changed, I've changed
Everything's now
And I've stopped living a lie
And I hope, I hope
If you're asking me to
The you'll give me some time
I've got so much more to give
So much life we've left to live
I wanna share my world with you
But you've got to try too
