

# Getting Even

Jason Eady

You told me that you love me  
I believed you  
You told me I was the only one  
You sure did seem to  
Mean it at the time  
But you were lying

I should've seen it coming  
Looking back  
You had me going  
You sure did act  
Like I was blind  
I was for a time

Well I could get mad or I could get going  
I could get on with my life knowing  
I could have a lot of fun getting even with you  
(Getting even with you)

I'm usually not the kind  
To be vindictive  
I'm more inclined  
To live and let live  
But this time around  
I won't back down

Well I could get mad or I could get going  
I could get on with my life knowing  
I could have a lot of fun getting even with you  
(Getting even with you)

Keep an eye on your friends  
They always liked me  
I think I'll call 'em up  
I bet they'll invite me  
Out on the town  
I'll stick around

Well I could get mad or I could get going  
I could get on with my life knowing  
I could have a lot of fun getting even with you  
(Getting even with you)

Yeah I could get mad or I could get going  
I could get on with my life knowing  
I could have a lot of fun getting even with you, even with you  
(Getting even with you)

I'm getting even  
Getting even with you  
I'm getting even
