

# Go Down Moses

Jason Eady

Well we walked through the desert and crawled on the sand  
Drank from the river in the palm of our hands  
Looked out over the neighborhood of Salem  
Knew we'd made it to the promised land  
And we sang

Go down go down Moses walk through the bottom with me  
Go down go down Moses lead the way home through the middle of the sea  
Walk through the bottom with me  
Go down Moses with me

Somebody came in the middle of the night  
And took us to the water with no end in sight  
Locked us up down deep inside  
We didn't stop crying until we saw the light

Go down go down Moses walk through the bottom with me  
Go down go down Moses lead the way home through the middle of the sea  
Walk through the bottom with me  
Go down Moses with me

Well I look out the window at everybody else  
Walking on by so I sing to myself  
Maybe someday we'll all accept  
There ain't nothing wrong if there's anything else

Well there's truth in numbers and numbers don't lie  
People don't like it when they get too high  
We push and we pull and we don't understand  
Why we never make it to the promised land

Go down go down Moses walk through the bottom with me  
Go down go down Moses lead the way home through the middle of the sea  
Walk through the bottom with me  
Go down Moses with me

Go down go down Moses walk through the bottom with me  
Go down go down Moses lead the way home through the middle of the sea  
Walk through the bottom with me  
Go down Moses with me
