

## Now or Never

Jason Eady

It's a race against time, I'm feelin' it now  
Gotta get across the finish line somehow  
I've been scrapin' and a-crawlin', diggin' in my heels  
It's time to find out how the other side feels

I gotta move along, one foot then the other  
Right or wrong, one way or another  
Clock keeps tickin' and it's right on cue  
"Now or never" never sounded so true

Well he's been waitin' for the world to unravel at the seams  
Got a bunker full of blankets, bottled water, baked beans  
He got diesel in the generator, prices were low  
He's hurry-up-and-waitin', revelations are slow

Got to move along, one foot then the other  
Right or wrong, one way or another  
Clock keeps tickin' and it's right on cue  
"Now or never" never sounded so true

You've been savin' your money, you've been savin' your dreams  
Got plans to make plans, got places to be  
You could hop an accidental in a Continental train  
You could put another penny in the piggy bank

You gotta move along, one foot then the other  
Right or wrong, one way or another  
Clock keeps tickin' and it's right on cue  
"Now or never" never sounded so true

It's a race against time, I'm feelin' it now  
Gotta get across the finish line somehow  
I've been scrapin' and a-crawlin', diggin' in my heels  
It's time to find out how the other side feels

I gotta move along, one foot then the other  
Right or wrong, one way or another  
The clock keeps tickin' and it's right on cue  
"Now or never" never sounded so true
