

Thumbing my way down wayside
I got some time to kill
I start humming this melody
It won't let me stand still

Mmm, I got a good thing coming
Mmm, better get it before it's gone
Mmm, I hear that guitar strumming
Mmm, sing that song

It starts out somewhere in the air out there
I catch it in the wind
It shows up out of the clear blue sky
Feeling like an old friend

Mmm, I got a good thing coming
Mmm, better get it before it's gone
Mmm, I hear that guitar strumming
Mmm, sing that song

Well I take comfort in the way the words
Sing me a melody
I wait till they find their rhythm
Then I start tapping my feet
So tell me can you feel that backbeat
Don't it make you want to move
If don't, don't forget it, it's ok to let it
Find your groove

Mmm, I got a good thing coming
Mmm, better get it before it's gone
Mmm, I hear that guitar strumming
Mmm, sing that song

Well there'll be time enough tomorrow
To find out what it all means
Tonight we're doing the cooking
First we got to soak them beans

Mmm, I got a good thing coming
Mmm, better get it before it's gone
Mmm, I hear that guitar strumming
Mmm, sing that song

Mmm, I got a good thing coming
Mmm, better get it before it's gone
Mmm, I hear that guitar strumming
Mmm, sing that song

If don't, don't forget it, it's ok to let it
Find your groove
Find your groove
