

## Wishful Drinking

Jason Eady

It's been a long time and I finally gotten over you  
I took on tall women and a lot of whiskey down  
Tonight I'm lying here in this city I don't know  
Thinkin' I might call you up again

Would you tell me that you've been dreamin' of me!  
You've been waking up waitin' on my call  
Or is that just me doin' some wishful drinkin'  
I wonder if you've thought of me at all

Well my life has been a long line of habits I can't break  
And everyone has finally brought me down  
So take another pull, put this bottle on the ground  
If I said I was through, would you believe me know

Would you tell me that you've been dreamin' of me?  
You've been waking up waitin' on my call  
Or is that just me doin' some wishful drinkin'  
I wonder if you've thought of me at all

I don't know why I thought I could come around tonight  
Well maybe I just hoped I'd hit the ground  
But it's time to fly again, maybe I'll see you someday  
And we can talk about how far we've come

Would you tell me that you've been dreamin' of me?  
And you've been waking up waitin' on my call  
Or is that just me doin' some wishful drinkin'  
I wonder if you've thought of me at all  
Yeah is that just me doin' some wishful drinkin'  
I wonder if you've thought of me at all
