

Mountain

Jason Gray

A single stone will make a ripple in the river
But a few in a row make a path
Many stones can
Build a bridge
Make a wall
On their own they're not much at all
You and I are a lot like that

Cause together we're a mountain
A force to be reckoned with
A city we're building higher
Higher

Steady like a kick drum
Foundation we can lean on
From the roots to the rooftops
We can't build it alone
Cause on our own we're stones

But together we're a mountain
Mountain
Together we're a mountain
We're a, we're a mountain
Together we're a

Mountain with the heart of God at the center
You can feel the beat in your bones
And it shakes the world when we
Come together
And build it better
On earth as it is in heaven
With love as the corner stone

Cause together we're a mountain
A force to be reckoned with
A city we're building higher
Higher

Steady like a kick drum
Foundation we can lean on
From the roots to the rooftops
We can't build it alone
Cause on our own we're stones

But together we're a mountain
Mountain
Together we're a mountain
We're a, we're a mountain

So let the rain fall down
Let the wind blow too
Let the trouble come
We won't be moved
Together we'll never be conquered
Together our love is stronger
Standing by your side
We won't be moved

We won't be moved

We won't be moved
We won't be moved

We won't be moved

Cause together we're a mountain
A force to be reckoned with
A city we're building higher
Higher

Steady like a kick drum
Foundation we can lean on
From the roots to the rooftops
We can't build it alone
Cause on our own we're stones

But together we're a mountain
Mountain
Together we're a mountain
We're a, we're a mountain
Together we're a mountain
Mountain
Together we're a mountain
(Together we're a, together we're a)
We're a, we're a mountain

Mountain
