

Another life but I still remember  
A county fair in steamy September  
In the Year of the Tiger 19-something  
I was broke and you were unbroken  
A little jokes to keep it unspoken  
Even when I knew you were the last one

I broke a promise to myself  
Ride the Throttle 'til wheels came off  
Burn out like a Molotov  
In the night sky  
I broke a promise to myself  
Made a couple to a brown eyed girl  
Who rode with me through the mean ol' world  
Never say die

Time flies when you're making babies  
Do you miss your little black Mercedes  
Do you miss the girl you once had time to be  
When you said we had the same three wishes  
I hope you weren't being facetious  
And I hope you still see fire inside of me

I broke a promise to myself  
Ride the throttle 'til the wheels came off  
Burn out like a Molotov  
In the night sky  
I broke a promise to myself  
Made a couple to a browneyed girl  
Who rode with me in the mean ol' world  
Never say Die

I broke a promise to myself  
Ride the Throttle til the wheels came off  
Burn out like a Molotov  
In the night sky  
I broke a promise to myself  
Made a couple to a brown eyed girl  
Who rode with me through the mean ol' world  
Never Say Die
