

All I'm Drinking 'Bout

Jason Michael Carroll

You broke my heart when you walked out
Baby and now, that's all I'm drinking 'bout

My friends say they don't know me anymore and my poor mom is worried
to
They say I'm spending too much of my time in the shade of me, I know
But they don't see the way your memory haunts me everyday since you've
been gone

You broke my heart when you walked out
Baby and now, that's all I'm drinking 'bout
The words you said spinning in my head
Round by round, it's all I'm drinking 'bout

I guess you were right to say goodbye to me
In your shoes I probably would have too
I made you believe we didn't have anything
Left right or wrong with me and you
I know that hurting me, didn't mean to be part of your plan
But I got that day

You broke my heart when you walked out
Baby and now, that's all I'm drinking 'bout
The words you said spinning in my head
Round by round, it's all I'm drinking 'bout
It's all I'm drinking 'bout

I'll take the fall, I'll pay the cost
I'll drown me in stouts, until get lost
I should have found a way to change
And make you wanna to stay

You broke my heart when you walked out
Baby and now, that's all I'm drinking 'bout
The words you said spinning in my head
Round by round, it's all I'm drinking 'bout

You broke my heart when you walked out
Baby and now, that's all I'm drinking 'bout
The words you said spinning in my head
Round by round, it's all I'm drinking 'bout

It's all I'm drinking 'bout
It's all I'm drinking 'bout

That's all I've had's, all I've been at's, all I've been drinking 'bout
ut
That's all I've had's, all I've been at's, all I've been drinking 'bout
ut
