

Waste Their Life

Jason Michael Carroll

You hear every time, someone has died
That they left this old world way too early
If they were still here, they'd spend their years
Making every day all that it could be
So I don't wait

Yeah tonight, what if we'd try
To make someone's day better tomorrow
And then we, could do some great things
In the memory of those lost in sorrow
No we won't bring them back, and we're still gonna cry
But with every good deed done in love we didn't waste their lif
e
Waste their life

I've often thought, of those that are gone
And if they were all up there just watching
Would they recognize the good in my life
Or would they be ashamed that they knew me
And it weighs on my mind

Yeah tonight, what if we'd try
To make someone's day better tomorrow
And then we, could do some great things
In the memory of those lost in sorrow
No we won't bring them back, and we're still gonna cry
But with every good deed done in love we didn't waste their lif
e
Waste their life

If they believe man as much as we say
Wouldn't we try to live every day
The way that they look if they were still here
Without any fear

Yeah tonight, what if we'd try
To make someone's day better tomorrow
And then we, could do some great things
In the memory of those lost in sorrow
No we won't bring them back, and we're still gonna cry
But with every good deed done in love we didn't waste their lif
e
Waste their life
Don't waste their life
Waste their life
