

We Ride

Jason Michael Carroll

Top it off, hit the road
The engine roars, lot of smoke
Disappear like a ghost
Into the night
On my neck I feel your breath
In my veins adrenaline
Push the needle to the red
Hold on tight
Ooh, oh, ooh

We ride tonight
Anywhere you want to go, we'll find tonight
Don't you want to feel
Alive tonight
Hold your body close to mine
Don't stop till the morning light
Yeah, yeah, we ride

Out of town, all alone
Can't slow down these restless souls
We both know where this goes
It just feels right
Ooh, and it's too strong to fight

So we ride tonight
Anywhere you want to go, we'll find tonight
Don't you want to feel
Alive tonight
Hold your body close to mine
Don't stop till the morning light
Yeah

I'm not gonna lie, with you here by my side
You make it hard for me to stay between the lines
While we ride, oh oh

So we ride tonight
Anywhere you want to go, we'll find tonight
Don't you want to feel
Alive tonight
Hold your body close to mine
Don't stop till the morning light
Yeah, yeah
We ride, don't you wanna feel
Alive, oh oh
