If It Kills Me

Jason Mraz

Hello, tell me you know, yeah, you've figured me out
Something gave it away
And it would be such a beautiful moment to see the look on your face
To know that I know that you know now

And baby that's a case of my wishful thinking
You know nothing
'Cause you and I, why we go carrying on for hours on end
We get along much better than you and your boyfriend

Well, all I really want to do is love you
A kind much closer than friends use
But I still can't say it after all we've been through

And all I really want from you is to feel me
As the feeling inside keeps building
And I will find a way to you if it kills me, if it kills me

Well, how long can I go on like this, wishing to kiss you
Before I rightly explode
And this double life I lead isn't healthy for me in fact it makes me
nervous
If I get caught I could be risking it all
Well, baby there's a lot that I miss in case I'm wrong

All I really want to do is love you
A kind much closer than friends use
But I still cant say it after all we've been through

And all I really want from you is to feel me
As the feeling inside keeps building
And I will find a way to you if it kills me, if it kills me

If I should be so bold, I'd ask you to hold my heart in your hand
Tell you from the start how I've longed to be your man
But I never said a word I guess I'm gonna miss my chance again

Well, all I really want to do is love you
A kind much closer than friends use
But I still can't say it after all we've been through

And all I really want from you is to feel me
As the feeling inside keeps building
And I will find a way to you if it kills me, if it kills me
I think it might kill me

And all I really want from you is to feel me
It's a feeling inside that keeps building
And I will find a way to you if it kills me, if it kills me
It might kill me
