

# This Is What Our Love Looks Like

Jason Mraz

I live every moment to say  
How much I love this day  
There are no obstacles in our way  
No mountains to climb  
Everything that I look at is a blessing  
Carrying us to build our very strengths  
There's no accidents there's only what is  
Go on and ask me then who I am

I have come to be the one to stand beside you when the sun decides to bow its head  
I've come to be your friend  
I'll share with you my secrets til there's nothing left to hide

And when you feel the darkness I'll remind you of the light you have inside  
This is what our love looks like

There isn't one part of me  
That doesn't love one part of you  
I'll never knock the things that you do  
If I did you would stop my being so rude  
I know you will and so...

I have come to be the one to stand beside you when the sun decides to bow its head  
I've come to be your friend  
I'll share with you my water so your well is never dry  
And when you're feeling empty I'll remind you of the life you have inside  
This is what our love looks like

I let every moment say  
How much I love this day  
No "buts" about it  
It don't matter if it's cloudy

I have come to be the one to stand beside you when the sun decides to bow its head  
I've come to be your friend  
I'll share with you my secrets til there's nothing left to hide

And when you feel the darkness I'll remind you of the light you have inside  
This is what our love looks like

I'll be the one to stand beside you should your money run out til its end

I'll always be your friend  
I'll share with you my water so your well is never dry  
And when you're feeling empty I'll remind you of the life you have inside  
This is what our love looks like
