

# Close

Jason Nelson

Gotta be close...

I wake with this longing everyday  
Wanting to be near You know Your ways  
But when I start think that sin has burned my bridges  
I'm reminded of Your promises to me

And I know  
Neither death nor life can separate  
Jesus' blood  
Is keeping me in the vicinity  
But I still want more  
I'm like the deer that's panting for the water  
All I'm asking of You  
Is to be close  
Close  
That's all I wanna do is to be close to You  
Close  
That's all I want from You, yeah  
Singular desire  
That's what I'm after  
Gotta be  
Gotta be close

I realize that I drifted away  
Distracted by the worries of the day  
But You held Your position  
You never moved  
Now I'm shifting my life to bring me closer to You

And I know  
Neither death nor life can separate  
Jesus' blood  
Is keeping me in the vicinity  
But I still want more  
I'm like the deer that's panting for the water  
All I'm asking of You  
Is to be close  
Close  
That's all I wanna do is to be close to You  
Close  
That's all I want from You, yeah  
Singular desire  
That's what I'm after  
Gotta be  
Gotta be close

I was slipping in the wrong direction  
Wondering why I felt isolation  
But You never let me go  
You're calling me  
Now closer to You is where I wanna be  
Gotta be close  
Right here in Your presence  
It's what I want most  
I need You every second, yeah  
Gotta be close

Gotta be close  
Draw me nearer blessed, Lord  
I want You the most

I gotta be close  
That's all I wanna do is to be close to You  
Be close  
That's all I want from You, yeah  
Singular desire (singular)  
That's what I'm after (say I gotta gotta)  
Gotta be (say I gotta gotta)  
Gotta be close  
I gotta be close  
Close  
That's all I want from You, yeah  
That's all I wanna do, yeah  
Close

I wanna  
I gotta  
I wanna be  
I gotta be  
I need to be close to you  
Close  
Lift your voice and say  
I wanna be close  
Close  
Everybody put your hands together  
Close  
I really wanna wanna be close to You

I wanna be  
I gotta be  
I need to be close to you
