

# Otherside

Jason Nelson

Hear me  
I can see you on the other side  
Oh no

You took the fall  
Thought you lost it all  
Threw up your hands ready to quit  
Said life isn't fair  
This test is so scary  
Here is a word while you are weary

And this is what we say

I can see you on the other side of this  
Living life full of joy and happiness  
This ain't the end  
God ain't finished (I can see you)  
I can see you on the other side of this  
Living life full of joy and happiness  
This ain't the end  
God ain't finished

Listen

It's just a test to make you that much stronger  
God has a plan for you to win ohhh  
The winds may blow  
Just keep your eyes on the father  
You'll look just gold when He is finished

I can see you on the other side

I can see you on the other side of this  
Living life full of joy and happiness  
This ain't the end  
God ain't finished (Hey I can see you on the other side)  
I can see you on the other side of this  
Living life full of joy and happiness  
This ain't the end  
God ain't finished

Tell somebody

I can see you on the other side of this  
Living life full of joy and happiness  
This ain't the end  
God ain't finished  
I can see you on the other side of this  
Living life full of joy and happiness  
This ain't the end  
God ain't finished

Listen

Cuz His ways are not your ways  
Just let Him set the stage  
He already sees the end, yeah

His ways are not your ways  
He already set the stage  
Already sees the end

Cuz it ain't over  
It ain't over  
It ain't over  
It ain't over  
God ain't finished  
Say it ain't over  
It ain't over  
It ain't over  
It ain't over  
God ain't finished  
Tell somebody say it ain't over  
It ain't over  
There's a turnaround coming  
It ain't over  
Joy's on the other side  
It ain't over  
God ain't finished  
You need to know  
It ain't over  
It ain't over  
It ain't over  
God ain't finished  
Let me hear you saying  
It ain't over  
It ain't over  
It ain't over  
God ain't finished

His ways are not your ways  
Just let Him set the stage  
He already see the end

Tell somebody say  
It ain't over  
It ain't over  
It ain't over  
God ain't finished  
Tell em say  
It ain't over  
It ain't over  
It ain't over  
God ain't finished  
I need somebody to say it, say  
It ain't over  
It ain't over  
It ain't over  
God ain't finished  
Tell somebody say  
It ain't over  
Hey  
It ain't over  
Say it ain't over  
God ain't finished

Listen

I can see you in the future  
And you're looking much better than you do right now  
I'm telling you prophetically

I can see you in the future  
And you're looking so much better than you do right now  
Come on can y'all help me say it  
I can see you in the future  
And you're looking much better than you do right now  
I wish somebody would grab ahold to this  
Say I can see you in the future  
And you're looking much better than you do right now  
God ain't finished  
I need you to grab somebody  
I can see you in the future  
(And you're looking so much, so much, so much)  
And you're looking much better than you do right now  
I can see you in the future  
(Forget your yesterday, tomorrow's so much better)  
And you're looking much better than you do right now  
God ain't finished  
One more time  
I can see you in the future  
And you're looking much better than you do right now  
I said tell somebody I can see you in the future  
I can see you in the future  
And you're looking much better than you do right now  
God ain't finished  
Alright we gotta run  
One more time tell somebody say

It ain't over  
It ain't over  
It ain't over  
God ain't finished  
Say it ain't over  
I can't hear you say it  
It ain't over  
It ain't over  
God ain't finished

We gotta go but

I can see you in the future  
And you're looking so much better than you do right now  
Tomorrow's greater yeah  
I can see you in the future  
And you're looking so much better than you do right now  
Just one more time  
Tell somebody say  
I can see you in the future  
And you're looking much better than you do right now  
One more time  
I can see you in the future  
And you're looking much better than you do right now  
God ain't finished

It ain't over  
It ain't over  
It ain't over  
God ain't finished  
One more time help me say  
It ain't over  
It ain't over  
It ain't over  
God ain't finished
