Stripes

Jason Nelson

On a road
To a rooked cross
Jesus you were wounded for me
All the pain you endured
Just to deliver me from infirmity

By your stripes
We are healed
With every wound
Your plan was sealed
Not a word you'd say
While your blood was shed
By your stripes
We are healed
By your stripes

With an act of love you saved the world
Once for all eternity
Though the wounds were many
And the pain was great
You took away our mighty disease

By your stripes
We are healed
With every wound
Your plan was sealed
Not a word you'd say
While your blood was shed
By your stripes
We are healed
By your stripes

We are healed
Yes, we are
No matter what you say
We are healed

And by your stripes
By your stripes
Somebody claim it for your life
By your stripes we are
I proclaim in on the night
We are healed

Every sickness is healed
Cancer is healed
Diabetes is healed
We are
Aids is healed
Even the nation is healed
We are healed
