

Snowflake

Jason Reeves

I thought my heart played a trick on my eyes
Or maybe the drink that they gave me was spiked
I saw your face and it slowed down the time
It's wild a smile can look like the rest of your life

You're like a snowflake I found
In the heat of July
And it's not that you're cold
Cause you're fire
I just wish you were mine
And I don't wanna scare you off with
Some crazy stupid words
Like without you I don't wanna be in this world

Got in the car and I played you a song
You'd never heard it but you sang along like
Mmmm
"I'll follow you into the dark" it said
Have you ever loved someone so much
It sacred you to death?

You're like a snowflake I found
In the heat of July
And it's not that you're cold
Cause you're fire
I just wish you were mine
And I don't wanna scare you off with
Some crazy stupid words
Like without you I don't wanna be in this world

I saw The Notebook and I got inspired
Like what if we synched up the moment we fly?

You're like a snowflake I found
In the heat of July
And it's not that you're cold
Cause you're fire
Just wish you were mine
And I don't wanna scare you off with
Some crazy stupid words
Like without you I don't wanna be in this world
