

Cloud By Day

Jason Upton

I know you walk on the water
I know you ride on the wind
I know you clothe yourself with light
So why do I find it so hard to comprehend
Directions to the other side
A cloud by day a fire by night
I'll keep moving on
It may seem strange but I know it's right
I'll keep moving on

I've got my friends here to help me
I've got my wife here to hold me
I've got my children by my side
Although they do make me happy
I know they're to make me holy
Each day they raise the cup of Christ
