

Mom and Dad

Jason Upton

[Verse 1]

Mom and Dad take a look at me
On my bike riding both hands free
And I'm all right... It's a good night
Bigger now than I've ever been
Training wheels got no need for them
Mom I'm growing - Dad I've got to get going

[Chorus]

We are not the same -Everyday
We are changing
Another season fades
But that's OK - cause we are changing- anyway

[Verse 2]

Mom and Dad look who's holdin' me
Someone I get to love and dream with
on cold nights through the hard times
Sending out to the great unknown
How to sit on their perfect home
Mom we won't fight - Dad the winds right

[Chorus]

[Verse 3]

Mom and the kids sure grow fast
the more they grow up the more I ask
What am I doing? I hope it doesn't ruin 'em
Ways are worth more than costly gems
I'm diggin' up my past to remember them
Mom I love you - Dad there's nobody like you

[Chorus]

[Tag]

Another generation comes along and says,

Mom and Dad take a look at me
On my bike riding both hands free
And I'm all right... It's a good night
