

Disappear

Jason Walker

Thought we could pretend
We were living in
A song in someone's ears
I won't let you disappear
Like a language that
We could understand
But no one else can hear
I won't let you disappear

Every line we traced
Love can't be replaced
Any second I'd steal
I won't let you disappear, no
Like a dream I had
Beautiful inside
Living out my worst fears
But I won't let you disappear

Black out, fade out
I'm in a ghost town and I don't know what is real
But I won't let you disappear
Focus for the moment
In slow motion, I can find a way to feel
I won't let you disappear

Watch the circle spin
There and back again
Till time runs out of years
I won't let you disappear
I won't let you
