

# Fun While It Lasted

Jason Walker

One day we're gonna wake up  
And not know what happened  
When that day comes  
I hope we're still laughing  
If the timing is off and it all falls apart  
And we lose all the magic  
Either way, love  
It was fun while it lasted  
It was fun while it lasted

Looking back on the past  
Do you see me waiting for you  
Wonder where, where you're at right now  
I've been told we get old  
We forget the way that we were  
Used to dance singing songs out loud

Something keeping us together  
But I know nothing lasts forever

One day we're gonna wake up  
And not know what happened  
When that day comes  
I hope we're still laughing  
If the timing is off and it all falls apart  
And we lose all the magic  
Either way, love  
It was fun while it lasted  
It was fun while it lasted  
It was fun while it lasted

Do you still hear the trains  
When you stay up late at night  
Cause when I do oh, it takes me back

Something keeping us together  
But I know nothing lasts forever

One day we're gonna wake up  
And not know what happened  
When that day comes  
I hope we're still laughing  
If the timing is off and it all falls apart  
And we lose all the magic  
Either way, love  
It was fun while it lasted

I know nothing lasts forever

One day we're gonna wake up  
And not know what happened  
When that day comes  
I hope we're still laughing  
If the timing is off and it all falls apart  
And we lose all the magic  
Either way, love  
It was fun while it lasted

It was fun while it lasted  
It was fun while it lasted
