

If You Only Knew

Jason Walker

Calling you like we used to
Where did those feelings go, I-I
I been missing, reminiscing
Used to show all of our cards
I'm not the best at speaking straight
So I'm quiet with so much to say
Let's put the coffee on
Say everything we want
Everything we want

If you only knew
What I'm going through
Maybe you would feel the way I
Feel the way I do
From my point of view
We both know the truth
We could be running
With nothing to lose
If you only knew
If you only knew

We make it work but it's theater
I'm tired of playing the part
It's a masquerade and we pull the shades
Trying to hide who we are?
I'm not the best at speaking straight
So I'm quiet with so much to say
Let's put the coffee on
Say everything we want
Everything we want

If you only knew
What I'm going through
Maybe you would feel the way I
Feel the way I do
From my point of view
We both know the truth
We could be running
With nothing to lose
If you only knew
If you only knew

If you only knew
What I'm going through
Maybe you would feel the way I
Feel the way I do
If you only knew
What I'm going through
Maybe you would feel the way I
Feel the way I do
If you only

Calling you like we used to
Where did those feelings go, ah-ah
