

Close To You

Javier Colon

Feels like we've been on this road forever
Staring at your picture trying to keep it together
Nothing I'm doing is making it better
And I know it's gotta be now or never

Without your touch I'm losing my mind
That much is clear
Only one thing can make it right
Having you here

I don't wanna live my life
I don't wanna live my life without you
I wanna be close to you
Baby when we say goodbye it's another lonely night without you
I wanna be close to you, I wanna be close to you

You don't have to say it girl I know that you're lonely
I know that you've been going many nights without sleep
Looking for the answers and it's driving me crazy
Baby you're the only one who saves me

Without your touch I'm losing my mind
That much is clear
Only one thing can make it right
Having you here

I don't wanna live my life
I don't wanna live my life without you
I wanna be close to you
Baby when we say goodbye it's another lonely night without you
I wanna be close to you, I wanna be close to you

Can't take it any longer
Keep on telling myself I'm stronger
If I could just wrap my arms around you
Show you how I feel about you
That's what you deserve

I don't wanna live my life
I don't wanna live my life without you
I wanna be close to you
Baby when we say goodbye it's another lonely night without you
I wanna be close to you, I wanna be close to you

Yeah (I wanna be close to you)
Yeah (I wanna be close to you)
Yeah (I wanna be close to you)
Yeah
