

# My Little Girl

Javier Colon

(I can hear that)  
You can hear who?  
Can you hear dada?  
Can you say daddy?  
(Daddy)  
It's daddy  
(It's daddy)

I was never the one to be on time  
With anything in my life  
And that suits me just fine heeeey  
I was just having fun when I met my wife  
Waited ten years and now we're having a baby  
She said it's about time

But when my phone rang  
My heart stopped beating  
When she said "Baby I think it's time"

Get out of my way  
I'm coming through  
I'm about to meet my little girl  
Her momma just called  
Said we're waiting on you  
She's about to make her way into this world

Now I gotta tell you  
That's there's nothing better  
Her cry is the sweetest thing I've heard  
That's my little girl

Her first school play she's got the lead  
I'm proud as any daddy would be  
She must take after me  
Heeeey

Now my flights delayed and it's almost three  
Why does this always happen to me?  
Don't they know I've got somewhere to be

From plane to highway  
Traffics going sideways  
Finally pull up and run inside

Get out of my way  
I'm coming through  
Don't you know that that's my little girl  
She's walking on stage  
Singing debut  
And I wouldn't miss it for the world

I ran through the lobby  
And nothing could stop me  
Just in time to hear the single sweetest voice I've heard  
That's my little girl

Now she's all grown up got her own two boys

Married a real good guy  
She loves being a mom and wife

She asks me if I would stop by  
Her husbands outta town the kids are driving her crazy  
I said "I know what that's like"

But as I turned in  
To the driveway  
I can't believe my eyes  
Smoke flames sirens  
The kids were outside crying  
The oldest said "grandpa mommy's still inside"

Ohhh get out my way  
I'm coming though  
Don't you know that that's my little girl  
Neighbor said "no, nothing u can do"  
But he's not a dad so he don't know  
That I gotta get in there  
She's gotta be somewhere  
If I die tryin I don't care  
Cause that's my little girl  
(my baby girl)  
That's my baby girl

I was never the one to be on time  
For anything in my life  
But that wasn't me this time  
(I love you baby)  
(I love you daddy)
