

The Hard Way

Javier Colon

I can see the red lights in the distance
Telling me to stop before we crash
So this feelings , stop me breathing
Need to get myself
Here in pieces , where do we go now?

The remedy in my heart, before we fall apart
To see another day
We gonna have to do this the hard way
Time is never on our side
If we here to stay
Gonna have to do this the hard way
Fight or fly, disappear or stay alive
Cause fall in love again
Instead of just pretend
If love is here to stay
We gonna have to do this the hard way

If like I'm sinking in erosion
Looking for a way to fight the dark
You defeat me, you complete me
Don't know where we stand, no
For a new you, where do we go wrong?

The remedy in my heart, before we fall apart
To see another day
We gonna have to do this the hard way
Time is never on our side
If we here to stay
Gonna have to do this the hard way
Fight or fly, disappear or stay alive
Cause fall in love again
Instead of just pretend
If love is here to stay
We gonna have to do this the hard way

There's a light it's burning low
We made a fire inside of control
Will it take to ignite this love again?

The remedy in my heart, before we fall apart
To see another day
We gonna have to do this the hard way
Time is never on our side
If we here to stay
Gonna have to do this the hard way
Fight or fly, disappear or stay alive
Cause fall in love again
Instead of just pretend
If love is here to stay
We gonna have to do this the hard way
