

# Forever

Jax Jones

Chillin' with the lads on the beach  
Walkin' down the road, smokin' joints in the streets  
And in our mind, there's no time to be wastin'  
Tonight is the night, I'm a row, I'm a wavy  
I've known you for a long time, I've known you since you're this high  
I've seen you have your first kiss, helped you win your first fight  
I'll help you in your last, don't forget about the past  
Now we're in the present and we want this all to last forever

And we want this all to last forever  
And we want this all to last forever

Forever

Chillin' with the lads on the beach  
Walkin' down the road, smokin' joints in the streets  
And in our mind, there's no time to be wastin'  
Tonight is the night, I'm a row, I'm a wavy  
I've known you for a long time, I've known you since you're this high  
I've seen you have your first kiss, helped you win your first fight  
I'll help you in your last, don't forget about the past  
Now we're in the present and we want this all to last forever

And we want this all to last  
These were the best days of my life  
And we want this all to last  
And we want

No stress, last time  
No mess, best days  
My way, livin' in the best way  
I was here when you were there  
Stayed there one night  
Mad boys, mad love  
Oh, what a time

And we want this all to last forever  
And we want this all to last forever

Forever

Chillin' with the lads on the beach  
Walkin' down the road, smokin' joints in the streets  
And in our mind, there's no time to be wastin'  
Tonight is the night, I'm a row, I'm a wavy  
I've known you for a long time, I've known you since you're this high  
I've seen you have your first kiss, helped you win your first fight  
I'll help you in your last, don't forget about the past  
Now we're in the present and we want this all to last forever
