

# One Touch

Jax Jones

Promise me you'll catch me when I'm weightless  
Hold me close before the crazy come  
Until you're done with running, I'll be patient  
Cause I know, I know you'll be there

And oh I never had a plan for this  
Everything is what it is  
You never hold me back in anything  
You didn't even have to try  
I made up my mind  
And I know, I know you'll be there

With just one touch  
You take me there  
Without your love  
We go nowhere  
With just one touch (you're always there to remind me)  
You take me there (when waters rough you will still be there)  
Without your love (you're always there right beside me)  
We go nowhere  
With just one touch  
With just one touch

When the tides all out and you're neglected  
It's okay if your rivers running dry  
Flips 180 when you least expect it  
So just don't, just don't you cry

And oh I never had a plan for this  
Everything is what it is  
You never hold me back in anything  
You didn't even have to try  
I made up my mind  
And I know, I know you'll be there

With just one touch  
You take me there  
Without your love  
We go nowhere  
With just one touch (you're always there to remind me)  
You take me there (when waters rough you will still be there)  
Without your love (you're always there right beside me)  
We go nowhere  
With just one touch  
With just one touch

Hold me tight, I'll never let you leave  
Let me go, I'll live in disbelief  
You say the truth, every time you speak  
Without a doubt, got everything I need (yeah)  
Hold me tight, I'll never let you leave  
Let me go, I'll live in disbelief  
You say the truth, oh every time you speak (see)  
No doubt, got everything I need

With just one touch (you're always there to remind me)  
You take me there (when waters rough you will still be there)

Without your love (you're always there right beside me)  
We go nowhere  
With just one touch  
With just one touch (you're always there to remind me)  
You take me there (when waters rough you will still be there)  
Without your love (you're always there right beside me)  
We go nowhere  
With just one touch  
With just one touch
