

# Bitchcraft

Jax

I learned it from my mother  
How to complicate, manipulate my brother  
And I know girls gotta learn to compliment each other  
So let's work together  
Fuckboy on the west side  
Always on my best side  
'Til he got around on the east side  
Then he got on my beast side  
I wait up all the time he takes to reply  
Take all his lies and use them to fly  
Well, I know shit to make a potion from this bullshit

I can teach you bitchcraft  
How to make your man cry  
I can walk you through that  
If you don't know how  
I can teach you 'bout bitchcraft  
Gotta love 'em with your bags packed  
We can make 'em hurt  
Just say the word  
I can teach you bitchcraft  
Da da dum dum dum  
Da da dum dum dum  
Da da dum dum dum  
I can teach you bitchcraft

Remember, you're the magic  
You can disappear, and then he'll never have it  
And I know it's hard to walk, it's hard to break a habit  
But you're a savage  
Put a spell on his heart, turn a man to a filler  
Now I drink his tears in a jar  
And I chase him with tequila  
I wait up all the time he takes to reply  
Take all his lies and use them to fly  
Well, I know shit to make a potion from this bullshit

I can teach you bitchcraft  
How to make your man cry  
I can walk you through that  
If you don't know how  
I can teach you 'bout bitchcraft  
Gotta love 'em with your bags packed  
We can make 'em hurt  
Just say the word  
I can teach you bitchcraft  
Da da dum dum dum  
Da da dum dum dum  
Da da dum dum dum  
I can teach you bitchcraft  
Da da dum dum dum  
Da da dum dum dum  
Da da dum dum dum  
I can teach you bitchcraft

He had it all, he had it  
This ain't about black magic

He had it all, he had it  
This ain't about black magic, boy

I can teach you bitchcraft  
How to make your man cry  
I can walk you through that  
If you don't know how  
I can teach you 'bout bitchcraft  
Gotta love 'em with your bags packed  
We can make 'em hurt  
Just say the word  
I can teach you bitchcraft  
Da da dum dum dum  
Da da dum dum dum  
Da da dum dum dum  
Da da dum dum dum
