Jax

Cupid, I got a bone to pick  
You sick little bastard  
You master of disaster  
I'm a wreck

Every time  
I look into those Neptune eyes  
The earth falls off its axis  
And my universe collapses

Stupid Cupid, look what you did to me  
My heart is melting  
I never knew I could love something so much that it hurts  
Oh Cupid, I should have shot you first  
Stupid Cupid I should have shot you first

Cupid, I'll make you pay for this  
You sick little sadist  
You knew where you were aiming

And it feels like  
The ground is paper thin  
When he grabs my face it's  
Like my lungs are gonna cave in

Stupid Cupid, look what you did to me  
My heart is melting  
I never knew I could love something so much that it hurts  
Oh Cupid, I should have shot you first

Stupid Cupid, I should have shot you...

Stupid Cupid  
You did me so dirty  
You showed no mercy  
I never knew I could love something so much that it hurts  
Oh Cupid, I should have shot you first  
Stupid Cupid, I should have shot you first
