Jax

It took a little self confidence
To be confident in the relationship
I'm not saying that we're narcissists
We're just self sufficient
It is what it is

Everybody in the past
No they couldn't make it last
Cause they never did it like we do, we do
Started feelin myself
Cuz you're feelin yourself
And the reason I fell for you is

U love u
I love me
That's why this works perfectly
No we're not stressed out bout our insecurities
Cause u love u
And I love me
I do me
You do you
That's why we got no issues
No we're not stressed out bout our insecurities
Cause u love u
And I love me
Love me
Love me (Love me)
U love u
And I love me
Love me (Love me)
Love me (Love me)
U love u
And I love me

Don't need drama
Or hot boy summer
I'll be good by myself
But when it's cuffin' season
And we catch feelings
We know how to treat ourselves

I'm talking one way drives
Into sleepless nights
Yeah you get me high
When I'm low low low
They don't do it like
You and me for life
And the reason we'll be alright is

U love u
I love me
That's why this works perfectly
No we're not stressed out bout our insecurities
Cause u love u
And I love me
I do me
You do you

That's why we got no issues
No we're not stressed out bout our insecurities
Cause u love u
And I love me
Love me
Love me (Love me)
Cause u love u
And I love me
Love me (Love me)
Love me (Love me)
Cause u love u
And I love me
Love me
