Yeah yeah yeah

No no no no no no no no

It's a bit too early right now

I still have many things to say baby

Story about just the two of us, the deeper sound

Is filling up this space

Know it now know it now

I want to see your face a bit longer

Know it know know it know

Holding each other's hands

Stop the time baby

Don't worry yet

I want to call for you

From the end of your fingertips to your toes

Don't worry yet

Even if it's bright outside

Let's not be apart from each other girl

I will be by your side

I need you more I need you more

I want you more

I need you more I need you more

I won't get tired never
Tell me your love whisper in my ears
Look at me now
Something 'bout you girl
Act how we each feel
You are my girl
Honestly you know it too
There is nothing to worry about anymore baby
Because we are all the same

Don't worry yet
I want to call for you
From the end of your fingertips to your toes

Don't worry yet
Even if it's bright outside
Let's not be apart from each other girl
I will be by your side
