

## Rob Me Blind

Jay Brannan

Can we clear the air between us, and can we do it soon?  
I've been clawing at the mortar, your nails are dirty too  
When night falls, I crawl to the window and reach for the pain  
I'll fall, but I call you anyway

Someday we'll be eating lobster and drinking fine champagnes  
I'll sell seashells by your seashore 'til you swim through my veins  
He who sails is he who discovers, let's hear anchors aweigh  
There's space to claim under these covers, you steer clear of here anyway

You and me we spark, no I take that back  
Like a dancer in the dark, my beauty it's black  
Just match your lips up to mine, steal a kiss or rob me blind

You don't need another player gambling on your charms  
Dreaming of a victory wrapped up in your coat of arms  
I bid more if you're taking score, and I'm all set to pay  
But I'll lose cuz you'll choose him anyway

You and me we spark, no I take that back  
Like a dancer in the dark, my beauty it's black  
Just match your lips up to mine, steal a kiss or rob me blind

The greatest thing I ever learned is I don't know a thing  
The hardest thing I ever earned is a chance in the ring  
"simple boys make better boyfriends"; that just isn't true  
And time will tick 'til you can see there's no simple in loving you

You and me we spark, no I take that back  
Like a dancer in the dark, my beauty it's black  
Just match your lips up to mine, steal a kiss or rob me blind
