

## Built For This

Jay Critch

(Laron)

Young and growing up I had dreams I wanna ball  
Niggas locked up I ain't tryna be missing calls  
Coming where we came from we ain't had nothing at all  
Sometimes I gotta sit back and think about it all  
I'm built for this  
I could never fold bitch you know I'm built for this  
Hands clean but a nigga getting filthy rich  
This ice on me I know some niggas would kill for this  
But this clip on me you get pills for this  
I know money come with problems so I'm ready  
When I watch my back and I keep one up where I'm headed  
Bro ain't let me lackin', he gon keep up in that heading

Let it go till it's empty  
I can't show her love my heart empty  
I gave you my heart and watched you waste it  
Actin' like you basic  
You became weak in my eyes when you had did that lame shit  
Some much going on at home made me stay on vacation  
How I got in the game with my niggas is amazing  
House look like a resort on islands  
Try your luck and we resort to violence  
He the homie, you get touched for wylin'  
Shooters moving in silence  
I'm like oh yes, woke up in the morning to a new check  
Too blessed, riding in that demon but I'm too blessed  
New flex, I got two bad bitches it's a new flex  
Bossed up, I just really wanna see my crew flex  
Bossed up, pulled up on these niggas like a crew neck  
They could never keep me out the game I ride with two techs  
And she could never go and cut me off cause I'm on that  
They gon' love you when you going up till you fall down  
Tell 'em bitches if I said it then I meant it  
Started in the dirt I had to get it  
Don't wait till I leave Earth to give me credit  
I remember they was sleeping on me, I know they regret it  
You couldn't live my life for a day shit get hectic  
Ever since they day I put the gang on my necklace  
I gotta get paid either way I can't help it  
You better get paid why you actin' so helpless  
I been through some pain, I need green like a Celtic  
You cannot relate cause you ain't ever felt it  
Fuck minimum wage, want the K like I'm selfish  
Hood fav ride my wave bitch my name bigger than Elvis (Hood Fave)
