Off the drank and the room keep spinning
But a nigga still handle the business
Off the drank and the room keep spinning
But a nigga still handle the business
Off the drank and the room keep spinning
But a nigga still handle the business
Off the drank and the room keep spinning
But a nigga still handle the business

I'm in a foreign the color of mustard
Diamonds they dance with the moves like usher
My bitch a baddie I just want to touch her
I put the stones on her wrist and it's bustin'
I'm with this percolator and it's bustin'
Imma keep getting high till I'm heaven sent
I been feeling better than I ever did
Like I finally got out of my element
Diamonds shining with all of the elements
Shooter do it he clear up the evidence
Shooter do it turn you to remembrance
That's a black SUV like the president

It's the hood fave taking over the summer
I hope these niggas enjoying their slumber
I feel like KD I'm balling in Brooklyn
I feel like KD when he on the thunder

They want some followers I want some numbers
You seen a nigga blow up like dyno
I'm in the jungle I'm smoking on dyno
I'll hope you niggas extinct like dyno
Cartier's bust I just came off the rhino
You know I'm sick she gotta ride with iron on
Tryna get Richie more money than Lionel
Don't know who hating they all got a smile on

Aye
That's why I don't deal with the fake shit
I been with the same niggas for ages
Off the perk got me stuck in the matrix
I won't touch that lil bitch cause she basic
Got it up out the mud it's amazing
Benz truck now it's off to the races

Fly with drugs when I'm on a plane just to get my mind gone
5 hour energies and they be full of the drank I'm changing the time zone
I done fucked a little groupie even tho she lame don't know where my mind go

Head tap now that boy mind gone
Shooters see him he gon fire on

Off the drank and the room keep spinning
But a nigga still handle the business
Off the drank and the room keep spinning
But a nigga still handle the business
Off the drank and the room keep spinning

Off the drank and the room keep spinning
